WORK EXPERIENCE

SMARTXAAS LLP | FRONTEND DEVELOPER

India, Noida | Remote | Team Size - 2

- Led the frontend development team at smartxaas LLP, leveraging **React** to successfully deliver 5+ projects, ensuring high-quality user experiences and timely delivery.
- Migrated the frontend of multiple **PHP** based applications to **React**, enhancing performance, scalability, and user experience.
- Migrated multiple **PHP** functions to **JavaScript**, creating reusable components for seamless integration into React applications, improving code maintainability and reusability.
- Resolved daily issues related to **Sentry.js**, ensuring smooth error tracking and debugging processes. Additionally, handled synchronization of Evalunaer, improving system stability and performance.

FANTIGER | FRONTEND DEVELOPER

India, Noida | Jul 2022 - Sep 2023 | Team Size - 4

- Single-handedly migrated a fantiger app** from **React** to **Next.js**, optimizing page loading speed and image handling, resulting in improved performance and better user experience.
- Implemented key features using **Material UI** for UI development, **Redux** for state management, **Redux Toolkit** for API communication, and **React Hook Form** for form handling, enhancing application efficiency and user experience.
- Integrated **Stripe payment gateway** for secure and seamless transactions, implementing features like card payments, subscription management, and webhook handling to enhance user experience and reliability.
- Migrated Strapi database to MongoDB using Node.js and Express, ensuring improved performance, scalability, and data management.
- Collaborated in Agile development cycles, participating in code reviews, sprint planning, and daily stand-ups.
- Optimized loading times by **25%** by implementing lazy loading and other performance enhancements.

ARTISTFIRST | FRONTEND DEVELOPMENT INTERN

India, Noida | Mar 2022 - Jun 2022 | Team Size - 2

- Developed a **responsive web applications** using ReactJs and TailwindCSS, improving user engagement by 15%.
- Collaborated with a team of 4 to implement a **RESTful API** using Node.js and Express, ensuring seamless data flow between the frontend and backend.
- Optimized database queries in MongoDB, reducing query response by 20
- Integrated **JWT-based authentication**, securing user access for 500+ accounts.
- Participated in **code reviews** and followed Agile methodologies, improving code quality and development efficiency.
- Deployed the application on **AWS S3 and EC2**, ensuring scalability and 99.9% uptime.

PROJECT WORK

Book Store

REACT, REDUX, TAILWINDCSS, NODE, EXPRESS, MONGODB, MONGOOSE

- Designed and developed a full-stack Book Store application using React, Redux, and Tailwind CSS for an optimized UI/UX.
- Enhanced performance and scalability by using Mongoose for efficient database operations and Redux for state management.
- Integrated features such as book browsing, search functionality, user authentication, cart management.

Cryptography Trading Bot –

- Developed a Cryptocurrency Trading Bot as part of a college project.
- Implemented cryptographic algorithms and machine learning techniques to analyze market trends and make informed trading decisions autonomously.
- Utilized Python language and various libraries including Pandas, NumPy, and TensorFlow.

SKILLS

Languages: JavaScript, TypeScript, PHP, NoSQL, SQL.

Technologies & Tools: React.js, Next.js, Node.js, Material-UI, Tailwind CSS, Bootstrap, AWS, Strapi, MongoDB, Express.js, Git, GitHub.

EDUCATION

VBSPU, Jaunpur

Jul 2018 - Sep 2022

B.Tech with Information Technology

Percentage: 71%

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval, Image Processing.

ACHIEVEMENTS

- National Means Cum Merit Scholarship - Awarded in 2008
- Honored with the 'Excellence of Execution' Award at Fantiger.
